My Favourite Music

About My Music

Music has always been part of my daily routine. I usually listen to songs while doing assignments, travelling, or just before sleeping. My taste changes depending on my mood — sometimes I want something upbeat like **pop** or **rock**, and other times I prefer something calmer like *jazz* or *classical*. Music helps me stay focused when I study and also helps me unwind after a long day of classes at **TVETMARA Lumut**.
